
CONTENTS

I.M. Kulikov	
Scientific support of innovative development of horticulture (the results of the work of FSBSI ARHIBAN for 2015)	11
E.A. Egorov	
The main results of scientific-technical and production-financial FSBSI NCRRIH&V activities for 2015	21
S.D. Knyazev, N.S. Levgerova, M.F. Tsoy	
The results of the scientific activity of FSBSI “All Russian Research Institute for Fruit Crop Breeding” in 2015	32
T.V. Lebedeva	
The results of scientific research of the South Ural Research Institute of Horticulture and Potato growing in 2015	42
A.V. Ryndin	
Results of activity carried out in Russian Research Institute of Floriculture and Subtropical crops for the 2015	57
N.I. Savelev, R.E. Bogdanov	
The results of scientific research of the FSBSI ARRIGBEP in 2015	69
Yu.V. Trunov	
The main results of research and production activity of the FSBSI «All-Russia I.V. Michurin Research Institute of Horticulture» in 2015	84
<hr/>	
L.Ya. Aiba, I.G. Aiba	
The program and intention methods of organization and sustainable development of viticulture and winemaking in Abkhazia	90
S.O. Baturin, I.K. Apolinarieva	
Formation of the gene pool for creating varieties F ₁ -hybrids of everbearing large-fruited strawberry (<i>Fragaria x ananassa</i> Duch.)	98
S.O. Baturin, S.A. Khapova	
Genetic resources of breeding pink flowering garden strawberry (<i>Fragaria x Ananassa</i> L.)	102
E.P. Bezukh, N.N. Potrahov, V.B. Bessonov	
Microfocus radiography for assessing the quality of performance of winter grafting of fruit crops	106
Je.V. Bratukhina	
Seeds viability and seedlings development of the tulips received from different combinations of crossing at juvenile age	113

I.A. Byadovskiy	
Effect of different sources of carbon and of low temperature on the storage capacity of the pear in culture <i>in vitro</i>	121
V.A. Vysotskiy	
Light spectral composition as a regulator during clonal micropropagation of small fruit plants	126
E.V. Gorodnyaya	
The perspective foreign assortment of <i>Rosa</i> L. for breeding in the conditions of Foothills of Crimea	131
N.I. Denisov	
Almond trilobe: valuable ornamental plant for the south of the Russian far east	136
F.K. Dzhuraeva, E.A. Ivanova, G.R. Mursalimova, Z.A. Avdeeva, E.P. Starodubtseva, M.A. Tihonova	
Resistance to stress of forms and varieties of <i>Ribes nigrum</i> and <i>Ribes aurum</i> Pursh in conditions of Orenburg region	143
S.N. Evdokimenko, A.A. Lebedev	
Genetic and breeding evaluation of primocane raspberry on the thorny shoots	148
A.S. Zeynalov	
Necrosis syndrome of stems is a complex pathology of raspberry	152
A.S. Zeynalov, O.G. Griboedova	
Genetic and environmental dependence of adaptive capacity of <i>Psylla pyri</i> L. in harsh environments	157
N.S. Kiseleva	
Peculiarities of fructification periodicity of pear in the south of Russia	162
I.V. Knyazeva	
Research by electrophoresis method of seed <i>Lupinus albus</i> L. protein complex	170
N.V. Kozlova, V.V. Kerimzade	
State of the brown forest acid soils of tea plantations in humid subtropics of Russia in postagrogenic period	174
T.A. Kuznetsova, V.N. Sorokopudov	
Influence of the various moisture conditions on anatomical peculiarities of bird cherry leaves	182
G.D. Levko, I.T. Balashova, E.A. Zolnikova, A.A. Baikov, V.M. Turushina	
Analysis of modern varieties of <i>Iris hybrida</i> L. winter resistance in the connection with water soluble antioxidant content	187
S.A. Matushkin	
The influence of the mineral composition of the nutrient medium on the regeneration of isolated explants of black currant and gooseberry <i>in vitro</i>	192

O.I. Molkanova, L.N. Konovalova, T.S. Stakheyeva The formation of <i>in vitro</i> gene bank of fruit crops in the Main botanical garden of RAS	197
O.A. Opalko, S.A. Bekuzarova Efficiency of immune-stimulation of fruit and small fruit crops with para-amino-benzoic acid	201
N.D. Romanenko, S.B. Tabolin, E.N. Popova, M.T. Upadyshev, K.V. Metlitskaya Virus-vector nematodes on small fruit cultures in Russia	206
F.F. Sazonov The use of genetic resources in breeding of black currant on the resistance to pathogens and Big Bud Mites	210
V.V. Sokolova, A.K. Mamontov Preservation of valuable genetic resources in the Main Botanical Garden of RAS on the example of American chestnut (<i>Castanea dentata</i> Borkh.)	215
O.A. Sorokopudova Lilies and iris breeding prospects at ARHIBAN	219
D.V. Tolokontsev, A.I. Uskov, N.N. Tikhanova, A.A. Pankratova Experience of using led lighting in cultivation of potato plants <i>in vitro</i>	223
M.T. Upadyshev, K.V. Metlitskaya, A.D. Petrova, G.Yu. Upadysheva, A.A. Borisova Prevalence of harmful viruses in agrocenosis on fruit cultures in Moscow region	228
M.T. Upadyshev, K.O. Tikhonova, K.V. Metlitskaya Prevalence and harmful of raspberry viruses and techniques of its eradication	234
G.Yu. Upadysheva, S.M. Motylyova, M.E. Mertvishcheva Antioxidant activity in grafted plants of apricot in connection with various compatibility of components	238
L.V. Yarmolenko The effect of mineral composition of nutrient media on the regeneration ability of raspberry explants at the stage of introduction in culture <i>in vitro</i>	244
