
 CONTENTS

Z. A. Avdeeva, E. A. Ivanova, G. R. Mursalimova The results of variety trials and use of genetic resources of strawberry on the territory of the Orenburg region	11
S. D. Aitzhanova, N. V. Andronova, S. N. Postepai Breeding of strawberry on large-fruit	15
E. V. Aminova, F. K. Dzhuraeva, Z. A. Avdeeva, M. A. Tihonova The results of the study of primocane raspberry in conditions of the Orenburg region	19
N. G. Andrianova, T. O. Sirotina, L. V. Izlivanova Studying of winter-spring desiccation of black currant varieties in the context of climate change	24
N. G. Andrianova, T. O. Sirotina, L. V. Izlivanova, T. V. Likhacheva Ecological evaluation of black currants in the arid zone of central Kazakhstan	29
N. S. Vakhrusheva, G. A. Plenkina Estimation of strawberry collection material on yield in terms of the Kirov region	34
V. F. Vorobyov, V. V. Khromenko, V. G. Tolstoguzova Productivity of gooseberry varieties and cost-effectiveness of their cultivation	39
V. F. Vorobyov, V. V. Khromenko, V. G. Tolstoguzova Efficiency of varieties of strawberry and efficiency of production of berries	46
O. N. Vysotskaya, E. K. Sprinchanou, V. A. Vysotskiy The verification of long-term storage techniques for <i>in vitro</i> strawberry collections	50
V. A. Vysotskiy The appearance of non true-type forms during long term <i>in vitro</i> cultivation of small fruit plants	54
O. A. Gorelikova Estimation of resistance of introduced strawberry varieties to diseases in the conditions of Krasnodar region	58
M. L. Dubrovsky, I. V. Lukyanchuk, K. V. Zaytseva The influence of metabolites of phytopathogenic microorganisms on morphophysiological features of male gametophyte of small fruit crops	63
S. N. Evdokimenko Inheritance by physico-mechanical properties of fruits by hybrid raspberry posterity of primocane type	67
Ye. V. Zhbanova, I. V. Luk'yanchuk, N. A. Pak Evaluation of strawberry selected forms for soluble solids content in fruit	72
S. V. Klymenko, O. V. Grygorieva Pawpaw three-blade (<i>Asimina triloba</i> (L.) Dunal) in the Forest-Steppe of Ukraine: introduction, adaptation, medicinal properties	77

I. V. Knyazeva	
Introduction to a sterile culture of the new strawberry variety	81
N. V. Kozak, Z. A. Imamkulova, L. N. Ilyinova	
New <i>Actinidia arguta</i> varieties of ARHIBAN breeding	85
V. I. Lapshin	
Breeding and genetic evaluation of strawberry varieties on productivity based on the coefficient of heritability	89
N. N. Leonov	
Phytopathological condition of plum and perspective tendencies in protection her from diseases in humid subtropics of Russia	93
I. V. Luk'yanchuk, N. A. Pak	
Resistance of strawberry selected forms to abiotic stressors in autumn and winter period	99
E. V. Malaeva, L.N. Konovalova, O. I. Molkanova	
Use methods of biotechnology at the accelerated multiplication of small fruit cultures	103
K. V. Metlitskaya, M. T. Upadyshev, A. D. Petrova	
Prevalence of viruses in agroecosis of gooseberry and currant in Central area of Russian Federation	109
O. V. Panfilova, O. D. Golyaeva	
Peculiarities of water regime of red currant genotype in the drought condition of Central Chernozem region	114
V.N. Podorozhniy	
Creating varieties of blackberries for south zone of horticulture of Russia	119
V. N. Podorozhniy	
Improving the assortment of small fruits crops for North Caucasus Region of Russia through the use of the genetic potential of collections	124
T. G. Prichko, L. D. Chalaja, N. W. Mozhar	
Results of the variety study of quince fruits grown in the conditions of the South of Russia	128
T. G. Prichko, M. G. Germanova	
Food and biological value of berries of promising strawberries varieties grown in the southern of Russia	137
Zh. Rupasova, I. Garanovich, T. Shpitalnaya, T. Vasilevskaya, N. Krinitskaya, E. Tishkovskaya, L. Frolova, L. Murashkevich	
Peculiarities of carbohydrate composition of cornel fruits (<i>Cornus mas</i> L.) introduced in Belarus	145
F. F. Sazonov	
Economic-biological evaluation of green fruit varieties and hybrids of black currant	152
M. M. Salikhov, T. B. Sumarokova	
Productivity of strawberry according to the varieties	158

V. S. Simonov	
Identification of the best varieties – pollinizers of plum home (<i>Prunus domestica</i> L.)	164
N. V. Solovykh	
Tissue breeding of plants of genus <i>Rubus</i> for the heavy metals resistance	169
V. N. Sorokopudov, O. J. Zhidkih	
The beginning of breeding <i>Mahonia aquifolium</i> (Pursh) Nutt in Russia	173
V. G. Tolstoguzova	
Modern varieties of strawberries for the Moscow region	178
V. G. Tolstoguzova	
Results of studying of varieties of the gooseberry for highly effective technologies of cultivation in the Nonchernozem zone	183
M. T. Upadyshev, K. O. Tikhonova, K. V. Metlitskaya	
Study of viruses harmfulness on red raspberry in the field conditions	188
A. V. Fedorov, T. G. Lekontseva	
Especially temperature mode at different ways of hiding of grapes (<i>Vitis vinifera</i> L.) in the winter	193
V. V. Yakovenko	
Results of introduction and breeding of strawberry	197
