

## CONTENTS

<b>Z.A. Avdeeva, G.R. Mursalimova</b> Assessment of winter hardiness of <i>Fragaria ananassa</i> Duch. in the conditions of Cisural area.....	13
<b>L.I. Andronic, I.T. Balashova, V.V. Bujorianu, S. V. Smerya</b> Specific reactions of different genotypes of tomato <i>Solanum lycopersicum</i> L. on infestation with viruses .....	17
<b>S. N. Artyukh</b> Genetic resource of mutation breeding of apple varieties .....	23
<b>O. N. Borisova, E.A. Dolmatov</b> Frost hardiness of root system of promising clone rootstocks for pear.....	29
<b>V. G. Verzhuk, A. V. Pavlov, N. I. Dzyubenko, O.Y. Novikova, S. V. Murashev, O. V. Yeremina</b> Cryoconservation in nitrogen as a promising method to preserve plant biodiversity of stone and pome fruit crops .....	33
<b>T. I. Gavrilova, Yu. V. Trunov, A. I. Kuzin</b> Foliar nutrition as the factor of increasing of black currant productivity .....	37
<b>A.M. Galasheva, N.G. Krasova</b> Productivity of apple varieties on the semi-dwarf intercalary rootstock 6-9-76.....	41
<b>F. M. Gasymov</b> Researches of the plum gene pool of the South Ural Research institute of horticulture and potato growing.....	46
<b>N. V. Glaz, V. R. Galimov</b> Rooting of softwood-cuttings of cherry depending on their length .....	51
<b>S. E. Golovin</b> Species composition of phytopathogenic micromycetes on primocane raspberry and its influence on rooting of green cuttings.....	55
<b>O. D. Golyaeva</b> Fission according to berry color in inbred red currant progeny.....	59
<b>N. G. Gorbacheva</b> Microsporogenesis analysis in new tetraploid apple as an initial form for breeding .....	63
<b>O. A. Gorelikova</b> Perspective combinations of crossing of strawberry and productivity of the revealed hybrid forms in the conditions of the south of Krasnodar territory.....	68
<b>L. G. Demenina</b> Collection of dogrose species as the source material for breeding in the conditions of Samara region .....	73
<b>E. A. Dolmatov, B. B. Kornilov</b> Morphobiological characteristic of elite ornamental apple genotypes from the gene pool of All Russian Research Institute of Fruit Crop Breeding.....	78
<b>A. V. Dronov, V. V. Dyachenko, S. A. Belchenko, O. A. Zaitseva</b> Adaptive capacity and yield of forage sorghum in agro-climatic conditions of the Bryansk Opole.....	83
<b>M. L. Dubrovsky, O. Yu. Dubrovskaya, R. E. Kirillov, A. V. Kruzhkov</b> Analysis of general antioxidant activity of pear and sour cherry pollen genotypes in connection with the characteristics of its ecological resistance.....	87
<b>S. N. Yevdokimenko, I. M. Kulikov, N. M. Belous</b> The role of scientific heritage of academician I.V. Kazakov in breeding and modern gardening .....	92
<b>G. V. Eremin</b> Improving of the assortment of russian plum .....	98
<b>T. V. Zhidyokhina</b> Seasonal dynamics of berry average weight changes from primocane raspberry varieties grown on unirrigated land.....	103
<b>A. S. Zeynalov</b> Peculiarities of development and regulation of the number of plum fruit moth <i>Grapholitha funebrana</i> Fr. in the Central non-Chernozem zone.....	107
<b>Ye. N. Ivanenko, N. V. Tyutyuma, T. V. Menshutina, L. V. Popova</b> Potential of resistance of rootstocks and rootstock-scion combinations in arid conditions in the Astrakhan region.....	111

<b>Z. A. Imamkulova, H. M. Ahmadov, Z. N. Kholov, K. N. Nigmatjanova</b> Quantitative and qualitative indicators of pistachio ( <i>Pistacia vera</i> ) of local and introduced forms in Tajikistan.....	115
<b>Yu. F. Kanafina</b> The study of distant inter-specific hybrids in breeding on resistance to coccincomycosis .....	119
<b>Ye. A. Kaplin, A. V. Solov'yov</b> Influence of different number of shoot hilling of mother bed of vegetatively propagated rootstocks on their productivity and the quality of the obtained apple rootstocks.....	124
<b>N. I. Klimenko, V. L. Baskakova</b> The impact of climatic conditions on the productivity of walnut ( <i>Juglans regia</i> L.) in the steppe Crimea .....	127
<b>I. I. Kozlova</b> Peculiarities of the formation of the industrial assortment of strawberry in the Central Chernozem region .....	132
<b>S. A. Kornatskiy</b> Peculiarities of rooting <i>in vitro</i> of micrografts primocane raspberries ..	136
<b>N. M. Kuvshinov</b> Resource-saving as an element of the tillage system .....	140
<b>L. K. Kylik, S. M. Chehalkov, A. Yu. Gavrilova</b> Influence of nutrition area on the formation of morphological features and productivity of long-fibred flax of the an early maturing variety the Leader .....	145
<b>V. I. Lapshin, V. V. Yakovenko</b> Effects of genetic interactions in strawberry varieties at the inheritance of productivity trait .....	149
<b>L. I. Leont'eva, L. A. Gruner</b> The peculiarities of copper accumulation in organs and tissues of blackberry ( <i>Eubatus</i> Focke subgenus) relative to the conditions of mineral nutrition.....	153
<b>L. A. Lukicheva, V. M. Gorina</b> Influence of the steppe Crimean climatic conditions on the productivity of plant cherry-plum hybrid varieties .....	157
<b>M. A. Makarkina, A. A. Gulyayeva, A. R. Pavel, O. A. Vetrova</b> P-active substances of modern cherries varieties of in the conditions of the Orel region.....	161
<b>V. V. Mameev</b> Evaluation of the parameters of plasticity of winter wheat varieties depending on the weather conditions of the south-western part of the Central Russia.....	165
<b>O. V. Matushkina, I. N. Pronina, L. V. Yarmolenko, S. A. Matushkin</b> Influence of growth regulators on the induction of adventitious organogenesis in leaf explants of fruit and small fruits cultures <i>in vitro</i> .....	170
<b>A. A. Nazarova, S. D. Polishchuk</b> Characteristics of growth and development of corn hybrid "Obskiy 140" seed treatment with nano-drugs on the basis of nanoparticles of ferrum, cobalt and their combination.....	174
<b>S. E. Nigmatyanova</b> Prospects for the use of herbaceous perennials in landscaping in the conditions of the Southern Urals .....	178
<b>Z. E. Ozherelieva, M. I. Zubkova</b> Frost resistance of strawberry varieties in controlled conditions.....	183
<b>A. A. Petrova, N. A. Bome, A. A. Belozeroва</b> Evaluation of the initial material <i>Triticum aestivum</i> L. for resistance to chloride salinity.....	187
<b>M. A. Podgaetskiy</b> Evaluation of selected forms of raspberry on biochemical composition of fruits .....	191
<b>S. N. Potsepai, S. A. Bel'chenko, L. N. Anishchenko</b> Tannins in economically valuable small fruits crops .....	195
<b>E. S. Rezvyakova</b> The use of organo-mineral fertilizers in the seedlings production of thuja occidentalis .....	199
<b>S. V. Rezvyakova, A. G. Gurin</b> The influence of growth regulator Emistim on the yield of standard seedlings of apple-tree .....	203
<b>T. A. Roeva, E. V. Leonicheva, L. I. Leontieva</b> The influence of foliar nutrition on the content of bound and available water in apple shoots in winter-spring period.....	207

<b>N. D. Romanenko, M. T. Upadyshev, K. V. Metlitskaya</b> Phytoparasitic nematodes and use of bioantagonists in combating them on black currant in Moscow area.....	211
<b>F. F. Sazonov</b> The main objectives and results of breeding of black currants in the conditions of the South-Western part of non-Chernozem zone of Russia.....	215
<b>T. I. Saltykova, A. P. Sofronov</b> Estimation of black currant varieties on complex of agronomic characteristics under conditions of Kirov region .....	221
<b>E. N. Sedov, G. A. Sedysheva, Z. M. Serova, T.V. Yanchuk</b> Scab immune, triploid and columnar apple varieties bred at arrifcb and breeding prospects.....	226
<b>V. S. Simonov</b> The results of the study of plum varieties at the FSBSI ARHIBAN.....	232
<b>A.V. Solonkin</b> Creating cherry varieties in the Lower Volga region .....	240
<b>V. N. Sorokopudov, O. A Sorokopudova, A. G. Kuklina, N. I. Myachikova, Yu. V. Burmenko, V. Yu. Zhilenko, O. Yu. Zhidkikh, M.V. Evtukhova</b> Creation of varieties of rare garden crops in the European part of Russia .....	246
<b>S. M. Sychev, A. S. Popova, V. V. Selkin</b> Problems and prospects of development of vegetable production in Bryansk region .....	252
<b>G. N. Tarasova</b> Resistance of flowers of pears varieties to late spring frosts in the Middle Urals.....	256
<b>V. E.Torikov, O. V. Melnikova, N. S.Shpilev, V. V. Mameev, A. A. Osipov</b> Yield and grain quality of modern varieties of winter wheat in the Southwest of the Central region of Russia.....	260
<b>Yu.V. Trunov, A. V. Solovyev, E. M. Tsukanova</b> Apple assortment of orchards in Central Chernozem zone of Russia .....	268
<b>M. T. Upadyshev, K. V. Metlitskaya, A. D. Petrova</b> Diagnostics of harmful viruses on raspberry varieties of after <i>in vitro</i> culture .....	272
<b>G.Yu. Upadysheva</b> Dynamics of fructification of the cherry plum hybrid in conditions of the Moscow area.....	276
<b>S. V. Firsova, A. P. Sofronov</b> Study of pear varieties under conditions of Kirov region ....	280
<b>L. V. Frolova, M. G. Maksimenko</b> New variety of raspberry Uslada.....	285
<b>Z. Kh. Khamarova, I. N. Aliyev, F. T. Gazayeva</b> Resistance of the populations of buckthorn sea to abiotic factors in the fields of Kabardino-Balkaria.....	288
<b>L. K. Chekhalkova, L. D. Kiseleva, A. M. Konova</b> The influence of some agricultural practices on yield and quality of seed material of different earliness of potato varieties in the elite seed farming .....	292
<b>N. S. Shpilev, V. E. Torikov</b> Original seed farming as a factor in increasing grain crops productivity.....	296
<b>V. D. Shcherbatko</b> The influence of the rootstock and the type of crowns on the yield of apple varieties .....	300
<b>T. V. Yanchuk, E. N. Sedov</b> Vigour power of hybrid apple seedlings of different ploidy.....	304
<b>L. V. Yarmolenko, O. V. Matushkina, I. N. Pronina</b> Peculiarities of raspberry varieties rhizogenesis <i>ex vitro</i> .....	308
